February 2017

# About ReMilNet

---

- Targeted Focus on Efficiency and Effectiveness
  - Our Team leverage best practices and time saving technologies
  - Track record of cost savings and improved internal operations
- Extensive Network of Experts
  - ReMilNet (Retired Military Network) has experts across the country that cover a wide range of disciplines and across multiple clearance levels
  - Over 90% of our personnel hold bachelors or higher degrees and many also have specific certifications within their fields of expertise
- Proven Results
  - ReMilNet has completed over 260 contracts and task orders to date
  - Supported engagements in CA, FL, GA, SC, NC, VA and NCR
  - Customers regularly return to ReMilNet when projects need immediate results, and recommend ReMilNet to others who face the need for a rapid solution to an urgent requirement

# ReMilNet's Value Proposition

---

## ■ Attuned to Today's Issues

- ReMilNet encourages all of our personnel to remain at the forefront of their areas of expertise by attending training courses and workshops during the year.

## ■ Emphasis on Standardization and Consistency

- ReMilNet uses best of breed from industry, Lean Six Sigma, Project Management, and other platforms for customer efforts.

## ■ Maximize Retired Military and Veterans

- Retired military and veterans traditionally have a strong work ethic and adaptability that has proven beneficial to customers. Their ability to look at challenges from different angles has resulted in improved operations and costs savings for our customers.

## ■ Offer Short and Long Term Support

- ReMilNet provides both short (90 days) and long term (5+ years) support depending on the job requirements.

# Core Competencies

---

# Success Stories

---

- **Life Cycle Sustainment Management**
  - Conducted analysis of fielded equipment issues, isolated root cause and recommended adjustment to end-user training which reduced failure rate reporting and reduced shipping costs 5% annually
- **SharePoint Workflow Development**
  - ReMilNet supported the development, implementation, and training of an online ordering system for over 500 fielded users and reduced overtime by 50%
- **Internal Control Training**
  - ReMilNet developed and implemented an 8-hour Internal Control training program that reviewed federal and agency specific policies and procedures for agency functional managers
- **Spares Management**
  - ReMilNet refined and revised existing Equipment Replacement Program and improved accuracy of fielded spares by more than 20%
- **New Program Establishment**
  - ReMilNet supported the stand up of a new Comptroller Department during the 18 month transition period to full operational capability

# Success Stories Continued

---

## ■ Enterprise Data Collection and Reporting

- ReMilNet developed a methodology, processes, and templates to streamline reporting of 27 decentralized operation centers for improved data accuracy and analysis

## ■ Manpower Sustainment

- ReMilNet created duties and responsibility handbooks for a department that were used to justify personnel requirements and as a result, did not lose any positions during a personnel reduction evaluation

## ■ Grievance Submissions

- ReMilNet designed a comprehensive Standard Operating Procedure that has eliminated employee grievances related to organizational policies and procedures

## ■ Audit Readiness

- ReMilNet documented more than 80 processes that covered all aspects of the organization which assisted the customer in passing an engineering audit
